Crosby Coastal Park Gateway Update May 23

Forum established 2019 during Vision consultation

Vision completed and signed off by the Council 2019

But opposition continues to parts of the Vision:

- Strong opposition to new multi use path installation (£900000 LCR funding) planning permission refused.
- Some vociferous campaigning continues to remove sand and keep the prom open
- Some initial opposition to the very popular Bus Yard consession
- Some opposition to Waterloo Festival

No date for start of master plan, possibly early 2024

A big investment will be made on a small part of the coast (Hall Rd Sea defences) when this starts but some opportunities for realisation of the Vision

Good links made with Gormley Foundation, UU West Lancs GC but nothing doing with Peel Ports

Three new defibrillators (paid for through crowd funding) installed after a tragedy three years ago

Major refurbishment of Crosby Lakeside Adventure Centre completed (The Lake House now run by separate Company) 4 active litter picking groups brought together

Bid for funding made (Spacehive crowd funding) to provide new bins, skip disguising, more volunteer equipment and funding for the Forum
